Supervisor: Prof. M. Movahedi

B.A. in Business Administration

Sadra University

2015 - 2018

GPA:

3.52/4

Work Experience

Self-Employed & Freelance Software Developer (2018-Present)

As a full-stack developer, I've developed various products using numerous technologies and frameworks over the last five years. These products range from games and mobile apps to webpages and pc software. During this time, I had several responsibilities, whether I was doing a project commissioned by a customer or for my benefit. My primary responsibilities were:

- Implementing and supporting bug-free and scalable applications utilizing state-of-the-art technologies
- Writing robust and readable codes based on proper algorithms
- Unit testing of different components to ensure the quality and liability of products
- Meeting the deadlines and delivering the projects under agile conditions
- Taking advantage of countless frameworks, libraries, and languages to develop projects from scratch to the final commercial phase in a manner that covers all the desired features
- Coming up with new notions and functionalities to fulfill users' needs
- Employing appropriate database systems to store data and analyze them for patterns

The **portfolio** of my recent works is observable on [my website](#).
